

Grade Seven Integer Flyer Assignment

Your job over the next couple of Math blocks is to create a one-page flyer about the use of integers in the real world. Think of your flyer as a sales flyer trying to promote and educate people on the use of integers in day-to-day life.

You will have Friday, Monday and Tuesday of next week to complete this assignment. If you do not think that you will be able to complete this assignment during those two days, you will have to do some work during the evening. Flyers will be collected at the beginning of class on Wednesday November 15th - no exceptions! It will be assessed according to the simple rubric below:

Level 4
<ul style="list-style-type: none">- At least three uses of integers in the real world included- More than four colours included- Flyer is neat and legible- Extra creative effort shown - humor, drawings, etc.- Flyer is illustrated and layout is well thought out
Level 3
<ul style="list-style-type: none">- At least two uses of integers in the real world included- Four colours included- Flyer is neat and legible- Flyer is illustrated and some thought was given to layout
Level 2
<ul style="list-style-type: none">- At least one use of integers in the real world included- Less than four colours included- Flyer is not very neat and hard to read- Flyer is illustrated with little thought given to layout
Level 1
<ul style="list-style-type: none">- No real-world examples included- No colour- Messy and illegible- No illustrations and no thought was given to layout
